

How to Plan for Senior Living: *Community Conversations*

It's no secret that America is aging. The U.S. Census estimates that in 2030, nearly 1 in 5 U.S. residents will be 65+ and the number of people aged 85+ will grow to 8.7 million. You may have already been touched by this trend or you might be wondering how best to prepare for it. Azura Memory Care is introducing a series of community conversations, designed to offer you a relaxed environment in which to learn what might lie ahead and how best to plan for it.
